

# ARCHITECTURAL LIGHTING

LED Linear  
DB195 Series

## DB195

## IP20

This chandelier is an exquisitely slender fixture which is seamlessly integrates into delicate environments. It incorporates internal lens and reflector to reach anti-glare UGR<19, ensuring a harmonious illumination effect. The overall lamp body crafted from high-quality aluminum AL6063 for great thermal management. Furthermore, it adopts internal flicker free driver, support 0-10V dim and DALI dim.

LED Linear

### FEATURES

- Exquisite design with slender lamp body
- Anti-glare design, UGR<19
- Installation way: Suspended with ceiling plate
- Finished color: White RAL9016, Black RAL9005
- Sliding DC wiring holder
- Internal flicker free driver
- Dimming way: 0-10V, DALI

### APPLICATIONS

It is designed for indoor applications in dining room, kitchen island, restaurant, hotel, cafe, bar, museum etc.

# Technical Features

1

Ceiling brackets are in the same colour as the fixture, can be located in different position along the axis of the fixture to adjust suspension height of the fixture.

2

The 2.5 mm thick cables are made of sturdy and resistant elastomer material. For this reason and because the operating voltage on the lamp is safe and does not exceed 36V, the fixture can be suspended solely on the power cables.

3

Round and square mounting box can be paired with light fixtures of different shapes. It has two functions, as it covers the power connection and serves as a holder for the power wires. During installation, you can slightly adjust the installation height of the light fixture by the small button on the side of the mounting box to shorten or lengthen the DC cable, according to the actual application.

4

Circular and square shapes in three sizes 840/ 1370/ 1900mm. The lamp body based on a thin-walled aluminium profile with a diameter of only 16mm – visually and materially it is extremely lightweight. The light-emitting module are spaced apart to create a uniform spot of light.

5

The adjustable DC wire contact module allows the DC slider to be moved to the desired position according to the scene requirements.

6

The luminous part is controlled by a lens combined with a grid reflector to control light and achieves UGR<19.

PRODUCT DIMENSION

ART-DB195A

Model	Dimension(mm)						Size(mm)
	A	B	C	D	E	L1+L2	
ART-DB195A-840	840	Ø18	Ø42	Ø125	39	1700	L840*Ø18
ART-DB195A-1370	1370	Ø18	Ø42	Ø125	39	1900	L1370*Ø18
ART-DB195A-1900	1900	Ø18	Ø42	Ø125	39	2300	L1900*Ø18

ART-DB195B

Model	Dimension(mm)						Size(mm)

OPTICS

Suspension height

In the example used, the table is 2200mm long and its height is 920mm. With this arrangement of the components, we assume that the fixture is suspended about 1080mm above the table. This arrangement provides comfortable lighting of the table. The suspension height can of course be adjusted at the installation stage.

BASIC INFORMATION

Housing Material	Aluminium
Product Finishing	White RAL9016, Black RAL9005
Optic Material	Lens/PMMA
Light Source	SMD
SDCM	< 6
CRI	80
Lifetime(hr)	50,000h
LED Driver	Driver built-in, flicker free
Installation	Pendant
Electrical Class	Class I
Operating Temp.(°C)	-20°C~45°C
Storage Temp.(°C)	-20°C~65°C
Glow Wire Test (°C)	650°C

FEATURES & BENEFITS

General Efficacy	120lm/W
CCT Selection DIP Switch	1 CCT
Watt Selection DIP Switch	-
Dimming Option	DALI / 0-10V
Functions	-
UGR	< 19
Ingress Protection (IP Rating)	IP20
Impact Resistance (IK Rating)	-
Certification	RoHS/ CE
