## **UP TO SHINE, THERE IS LIFE.**

Lighting Comfortable &  
Acoustic solutions

# "Harmony Glow"

good for the eyes and ears

UPSHINE is following the market demand and developing a cutting-edge innovation acoustic felt lighting fixtures solutions for our customer.

In the contemporary design landscape, acoustic felt is a rising star, offering both functionality and style for interior space. By seamlessly integrating this versatile material into our product designs, we are not only illuminating spaces but also enhancing their acoustic comfort.

Market is growing focus on indoor environments and the desire for harmonious settings, our acoustic felt lighting products offer a unique solution. This fusion of lighting and acoustics optimizes space efficiency while elevating the overall ambiance of a room, creating a sanctuary of serenity and style.

"Harmony Glow" marks a new era in lighting solutions, where form meets function to redefine modern living experiences. Join us on this enlightening journey as we revolutionize the synergy between light and sound in our spaces.

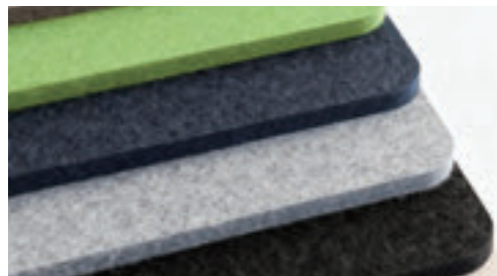

# STYLE MEETS SILENCE

We've seamlessly integrated high-performance acoustic materials into a sophisticated lighting fixture. The acoustic materials structure traps sound waves, mitigating noise clutter while the lamp casts a warm, diffused glow.

**It's a statement piece that actively improves your living experience.**

## PET

3D PET material is a new type of environmentally friendly sound absorbing material. It utilizes a 3D three-dimensional structure to reflect and absorb environmental noise, effectively reducing the noise that occurs in various environments, especially suitable for sound absorption in middle to high frequency bands.

## Sustainability

Material created by recycle material from environment.

## Benefit

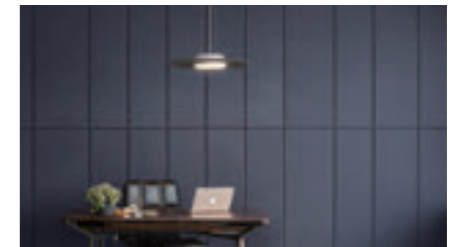

### Dual-Function Elegance

More than just light. Our lamps illuminate your space while softening unwanted noise, creating an island of tranquility.

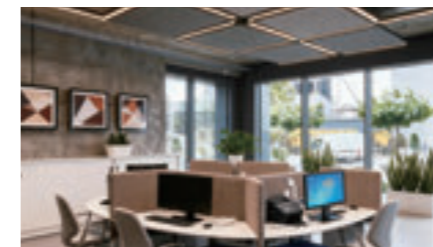

### Style Meets Silence

Experience the perfect fusion of innovative design and functional acoustics. These lamps provide ambient lighting and absorb disruptive echoes for a more focused and peaceful environment.

### Craft Your Calm

Transform any room into a serene sanctuary. The integrated acoustic foam reduces noise pollution, allowing you to relax, work, or create in perfect peace, bathed in gentle light.

### Work in Harmony

Ideal for home offices and studios. Enhance your focus by dampening distractions with our sound-absorbing lamps, designed for the modern multitasker.

The Sound of Light, Reimagined. We've redefined what a lamp can be. Beyond beautiful illumination, it actively contributes to your room's soundscape, making conversations clearer and atmospheres more calming.

# ACOUSTIC PERFORMANCE

Scientifically Proven

## EN 13823 & EN ISO 11925-2

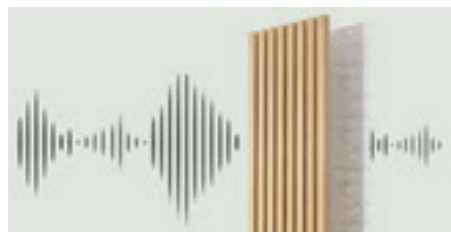

### EN 13823:2020

Reaction to fire tests for building products to the thermal attack by a single burning item.

## UNI EN ISO 354

Sound Absorption Test

### EN ISO 11925-2:2020

Reaction to fire tests-Ignitability of building products subjected to direct impingement of flame

## Space Optimization

Combining acoustic material with lighting fixtures allows for **efficient use of space**. Especially in areas where both functions are required but space is limited.

## Easy Installation

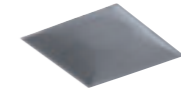

Acoustic felt is **easy to install**, making it a convenient solution for improving the acoustics of a room without extensive construction work.

## Construction Cost Reduction

Acoustic felt Ceiling normally install without false ceiling. This arrangement allow easy access to Air-con, lighting fixture & other piping in the ceiling space, it **reduce the entire space maintenance cost**.
